TOGETHER IN EVERY MILE

BRISA - THE COMPANY BEHIND THE LASSA BRAND

Founded in 1988, Brisa is a joint venture between the Sabancı Group of Türkiye and the Bridgestone Corporation of Japan.
Today Brisa is one of Europe's largest tyre producers with its two factories, İzmit & Aksaray, Türkiye.
• İzmit factory is one of the biggest factories under one roof in Europe with a dedicated research and development center
• Aksaray factory has state-of-the-art design and production technology in Türkiye.

Brisa's mission is to fulfill the expectations of:
• Customers - by offering them products of superior quality with an outstanding service
• Partners - by maintaining a value-generating company
• Employees - by providing them with an excellent work environment
• Society - through maintaining superior performance in corporate citizenship

Brisa maintains high corporate standards and as a resource-conscious company supports sustainable development.

QUALITY WITHOUT COMPROMISE...

Dedicated to the production of top-quality Lassa Tyres, Brisa manufactures at rigorous standards of quality control through the following widely recognized quality systems:
• ISO 9001:2015 Quality Management System
• IATF 16949:2016 Automotive Quality Management System
• ISO 14001:2015 Environmental Management Systems
• OHSAS 18001:2007 Occupational Health and Safety Management Systems
• ISO 27001:2013 Information Security Management Systems
• ISO 50001:2019 Energy Management Systems
• ISO 17025: 2017 Tire Testing Laboratory Accreditation
In addition Brisa's accreditations include:
• 1993 National Quality Award
• 1996 European Quality Award

REVOLA

Brand-new summer comfort segment tyre which offers superior wet grip performance with A label (range is from E to A). Revola carries "Nextgen" and "EV ready" markings as a testament to commitment to meeting the evolving needs of modern vehicles and drivers.

EV READY

Compatible with electric and hybrid vehicles.*

- Revola has been developed to be compatible with the load carrying capacity specified by the electric and vehicle manufacturers, as these vehicles are generally heavier than Internal Combustion Engine (ICE) vehicles.
- The high torque power in electric and hybrid vehicles may cause faster wear on the tyres due to the high acceleration experienced especially when the vehicle takes off. Revola offers a longer wearlife.
- Due to the fact that there is no engine in electric vehicles, there is less in-car cabin noise, and the tyre sound level can be felt more in the cabin. Revola offers lower tyre noise levels.
- Revola provides efficiency in battery life by offering improvement in rolling resistance.

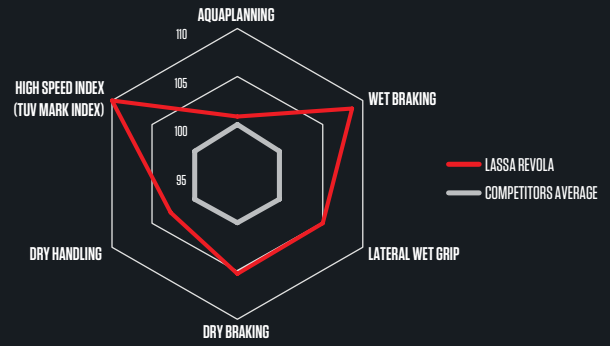

*There is no special tyre requirement for electric vehicles. Revola tyres are designed for use in both Internal Combustion Engine (ICE) vehicles and Electric and Hybrid vehicles (Electrical Vehicle: EV, Hybrid Electric Vehicle: HEV).

TÜV TEST RESULTS

Revola performs better than the average of its competitors in every discipline.*

* TÜV Test Report No: 713333774-TM, 2024, size 205/55 R16 91V

COMPETUS H/P3

Brand-new summer SUV on-road tyre of Lassa Tyres offers superior wet grip performance with A label (range is from E to A).

Competus H/P3 also stands out with improved wet and dry surface braking distance and high driving comfort while carrying "Nextgen" and "EV-ready" markings to meet the evolving needs of modern vehicles and drivers.

- Superior wet grip performance with A grade labelling (range is from E to A)
- Up to 10% improvement in rolling resistance* and superior fuel and energy efficiency with Class B labelling (range is from E to A)
- Up to 9% lower tyre weight* with its special design
- Improved wet and dry braking distance with new compound technology and enhanced tread pattern
- High driving comfort with improved body structure
- Increased wear life

**Compared to previous pattern – Competus H/P2. Based on tests conducted by Bridgestone Technical Center Europe.*

For mild winter condition areas, sufficient winter performance compared to summer tyre & comply with winter regulation.

- Non-compromise from safety and durability
- Compliance with EU regulations (R117)
- Have Snow Flake and M+S marking

Better snow performance due to winter oriented pattern

- V-cut grooves reduce the turbulance and decreases the risk of aquaplanning.
- Edgy pattern through the center provides better handling.
- Continuous Z-pattern provides easier manoeuvring and drainage.
- Long zigzag shaped lines provide better handling.

All Season Compound and Carcass Construction

- Silica compound provides enhanced wet braking performance & elasticity even under cold weather conditions.
- Strong bead filler constructed with differentiated layers provides durable tyre casing.

COMPETUS WINTER 2+

New generation 4x4 winter tyre with improved wet performance without comprimising winter performance

- Wet oriented performance with new compound usage.
- Superior snow traction and braking grip with the help of unidirectional tread pattern.
- Special designed zigzag lamellen technology to increase edge effect and grip on ice & snow.
- Increased snow shear force with high transversal groove volume.
- High transversal groove volume evacuates water from the central tread area for better performance on wet surfaces.
- Optimized pattern stiffness for dry handling performance.
